#### FIELD DESIGN:

Carolina Green Corp.  
Design/Build

#### SCHEDULE:

August 2017 – October 2017

#### DESCRIPTION:

Project included demolition of existing asphalt and chain link fence, erosion control measures, and grading to establish subgrade. Fencing, including backstop padding and foul poles was included. We provided and installed prefabricated dugouts, team benches, and aluminum bleachers. Field work consist of importing infield mixture, building mound and home plate areas, irrigation system, warning track, amendments to native soil, and installation of sand based Kentucky bluegrass sod.
